Effective as of 1 July 2024

HORIZON
POWER

Horizon Power delivers energy solutions to regional and remote Western Australia. We're focused on ensuring reliable electricity is provided to our customers in the most efficient way to reduce costs.

Most of our customers pay a tariff that is much lower than the actual cost of purchasing, generating, distributing and retailing electricity. The difference between the tariffs customers pay and the actual cost is subsidised by the WA State Government.

These tariffs are the same across all of WA to ensure everyone pays the same price for electricity no matter where you live.

Current tariffs, fees and charges, and information on additional products, rebates and subsidies are available on our website horizonpower.com.au/pricing

Tariffs

A2 Residential Tariff

The A2 tariff is the standard residential tariff applied to private dwellings (houses, home units, flats, apartments) used solely for residential purposes. It offers customers the same flat rate energy charge regardless of where they live and which time of the day electricity is used.

Supply charge	\$1.1322 per day
Supply charge (additional dwelling):	\$0.4501 /day
Electricity unit charge	31.5823 cents/kWh

K2 Combined Use Tariff

The K2 tariff is for premises used for a combination of residential and business purposes, who consume less than 160 megawatt hours per annum.

Supply charge	\$1.9979 per day
0 - 20 kWh/day	32.9933 cents/kWh
20 - 1,650 kWh/day	31.0918 cents/kWh
> 1,650 kWh/day	35.0549 cents/kWh

Rebates and subsidies

Horizon Power provides a number of rebates and subsidies, on behalf of the WA State Government, to residential customers who hold a concession card.

We are here to help. To find out more about the rebates and schemes available, or to download our financial hardship brochure, visit our website or call our customer service centre on **1800 267 926**.

L2 Small Business Tariff

The L2 tariff is applied to customers where electricity is used for business purposes, with consumption up to 50 megawatt hours per annum (up to 137 units per day on average).

Supply charge	\$2.0213 per day
0 - 1,650 kWh/day	31.4548 cents/kWh
> 1,650 kWh/day	35.4642 cents/kWh

L4 Medium/Large Business Tariff

The L4 tariff is applied to customers where the electricity is used for business purposes, with consumption of 50 megawatt hours or more per annum (greater than 137 units per day on average), and for customers who use electricity partly for residential and partly for business purposes, who consume more than 160 megawatt hours per annum.

New commercial customers should contact their local Horizon Power office to discuss their electricity needs and pricing.

Supply charge	\$1.7886 per day
0 - 1,650 kWh/day	36.3291 cents/kWh
> 1,650 kWh/day	30.8265 cents/kWh

Electricity is charged by the unit. A unit is one Kilowatt hour (kWh). All prices are correct as at 1 July 2024, include GST (except where noted otherwise), and are subject to change at any time.

Customers with specific needs
